afrimapr community meetups

Do you create maps using African data?
Do you use R to work with data in Africa?

afrimapr is launching a monthly virtual meetup!

We want to get to know our community and provide an opportunity for you to share your work, tips, and tricks with others.

What are you currently working on? What are your pain points when mapping data? What are your favourite tools, packages, data sources? How can we support your needs?

Join us for our first meetup, Wednesday 26 May. Come along to say Hello, no preparation needed!

Dates: Last Wednesday of the month
Starting date: **26 May 2021**
Time: 10:00 - 11:00 UTC
Where: Online
Register: Join our mailing list
https://groups.google.com/g/afrimapr/

Who should join?
Researchers, analysts, students making maps using African data. Newcomers to R welcome.
